

EYFS

These are the **most relevant** statements from Development Matters age ranges for Reception as well as highlighting the statements within the ELGs **which feed into** the programme of study for Science.

Reception

Communication and Language	<ul style="list-style-type: none"> • Learn new vocabulary. • Ask questions to find out more and to check what has been said to them. • Articulate their ideas and thoughts in well-formed sentences. • Describe events in some detail. • Use talk to help work out problems and organise thinking and activities, and to explain how things work and why they might happen. • Use new vocabulary in different contexts.
Personal, social and emotional development	<ul style="list-style-type: none"> • Know and talk about the different factors that support their overall health and wellbeing: <ul style="list-style-type: none"> - regular physical activity - healthy eating - tooth brushing - sensible amounts of ‘screen time’ - having a good sleep routine - being a safe pedestrian
Understanding the World	<ul style="list-style-type: none"> • Explore the natural world around them. • Describe what they see, hear and feel while they are outside. • Recognise some environments that are different to the one in which they live. • Understand the effect of changing seasons on the natural world around them.

Early Learning Goals

Communication and Language	Listening, attention and understanding	<ul style="list-style-type: none"> • Make comments about what they have heard and ask questions to clarify their understanding.
Personal, Social and Emotional Development	Managing Self	<ul style="list-style-type: none"> • Manage their own basic hygiene and personal needs, including dressing, going to the toilet and understanding the importance of healthy food choices

CULTIVATE- INSPIRE- FLOURISH

Understanding the World	The Natural World	<ul style="list-style-type: none"> • Explore the natural world around them, making observations and drawing pictures of animals and plants. • Know some similarities and differences between the natural world around them and contrasting environments, drawing on their experiences and what has been read in class. • Understand some important processes and changes in the natural world around them, including the seasons and changing states of matter. 	
<p align="center"><u>Key Stage 1 NC working scientifically</u></p> <p>During years 1 and 2, pupils should be taught to use the following practical scientific methods, processes and skills through the teaching of the programme of study content:</p> <ul style="list-style-type: none"> • asking simple questions and recognising that they can be answered in different ways; • observing closely, using simple equipment; • performing simple tests; • identifying and classifying; • using their observations and ideas to suggest answers to questions; • gathering and recording data to help in answering questions. 		<p align="center"><u>Lower Key Stage 2 NC working scientifically</u></p> <p>During years 3 and 4, pupils should be taught to use the following practical scientific methods, processes and skills through the teaching of the programme of study content:</p> <ul style="list-style-type: none"> • asking relevant questions and using different types of scientific enquiries to answer them; • setting up simple practical enquiries, comparative and fair tests; • making systematic and careful observations and, where appropriate, taking accurate measurements using standard units, using a range of equipment, including thermometers and data loggers; • gathering, recording, classifying and presenting data in a variety of ways to help in answering questions; • recording findings using simple scientific language, drawings, labelled diagrams, keys, bar charts, and tables; • reporting on findings from enquiries, including oral and written explanations, displays or presentations of results and conclusions; • using results to draw simple conclusions, make predictions for new values, suggest improvements and raise further questions; • identifying differences, similarities or changes related to simple scientific ideas and processes; • using straightforward scientific evidence to answer questions or to support their findings. 	<p align="center"><u>Upper Key Stage 2 NC working scientifically</u></p> <p>During years 5 and 6, pupils should be taught to use the following practical scientific methods, processes and skills through the teaching of the programme of study content:</p> <ul style="list-style-type: none"> • planning different types of scientific enquiries to answer questions, including recognising and controlling variables where necessary; • taking measurements, using a range of scientific equipment, with increasing accuracy and precision, taking repeat readings when appropriate; • recording data and results of increasing complexity using scientific diagrams and labels, classification keys, tables, scatter graphs, bar and line graphs; • using test results to make predictions to set up further comparative and fair tests; • reporting and presenting findings from enquiries, including conclusions, causal relationships and explanations of and a degree of

CULTIVATE- INSPIRE- FLOURISH

		<p>trust in results, in oral and written forms such as displays and other presentations;</p> <ul style="list-style-type: none">• identifying scientific evidence that has been used to support or refute ideas or arguments.

At Calthwaite C of E School we live out our vision by recognising that participation in a high-quality music curriculum can inspire pupils as well as develop well-being, promote listening and develop concentration and confidence. We do use Charanga to facilitate our progression of skills however music may be taught as a discreet subject or across the curriculum. Due to mixed aged classes we base our map on a 2-3 year cycle and have Class Yearly Overviews detailing how these music skills are taught as a child journeys through school ensuring they cultivate a clear pathway of progression. Every week pupils sing together as a school for our Singing Worship led by a school adult. Annual performances in school i.e. Harvest, Nativity, Easter, Talent Shows and Year 6 Leaver Shows demonstrate that music is important to the life of the school and allows all pupils opportunities to flourish. We offer extra- curricular peripatetic music lessons for pupils every Wednesday (including our PP pupils within these 1:1 sessions).
